ATTACHMENT: Alt 4 Two Cell 80M Draft.pdf

Please find attached the draft cost estimate for Alternative #4 2-CAD-Cell scenario at \$80M/year. Comments on the previous hybrid and T&D cost estimates have been incorporated into this cost estimate, as applicable, which have not yet been reflected in the hybrid and T&D estimates. Therefore, the three scenarios are similar but not entirely comparable at this stage. The three cost estimates will be revised with consistent assumptions for the ESD. Please let us know if you need revised cost estimates prior to the ESD estimates.
